## Preface

This is the tenth volume of the series *Empirical Issues in Syntax and Semantics* (EISS), which, like the preceding nine volumes of the series, is closely related to the conference series *Colloque de Syntaxe et Sémantique à Paris* (CSSP). All of the 18 papers included in the present volume are based on abstracts that were accepted for (and, in most cases, also presented at) CSSP 2013, which took place on 26–28 September 2013 at Université Paris 7 ([http://www.cssp.cnrs.fr/cssp2013/index\\_en.html](http://www.cssp.cnrs.fr/cssp2013/index_en.html)). CSSP 2013 had a thematic session on experimental syntax and semantics, and so the papers originating from the thematic session (eight papers) are grouped together separately from the papers originating from the main session on (theoretical) syntax and semantics (ten papers).

I would like to take this opportunity to thank the external reviewers, whose comments aided the authors in revising the first drafts of their papers, often substantially. With their permission, the reviewers were (in alphabetical order by column):

|                     |                   |                  |                |
|---------------------|-------------------|------------------|----------------|
| Anne Abeillé        | Jonathan Ginzburg | Caroline Heycock | Rainer Osswald |
| Fabio Del Prete     | Beáta Gyuris      | Brenda Laca      | Waltraud Paul  |
| Jakub Dotlačil      | Andreas Haida     | Emar Maier       | Matthew Reeve  |
| Martina Faller      | Daniel Hardt      | Alda Mari        | Jesse Tseng    |
| Hans-Martin Gärtner | Dag Haug          | Diane Nelson     | Richard Zuber  |

Finally, I would also like to thank both the scientific committee and the organizing committee of CSSP 2013 ([http://www.cssp.cnrs.fr/cssp2013/contact/index\\_en.html](http://www.cssp.cnrs.fr/cssp2013/contact/index_en.html)) for their efforts in planning and organizing a very enjoyable conference.
