Preface

This is the fourteenth volume of the series *Empirical Issues in Syntax and Semantics* (EISS), which, like the preceding thirteen volumes of the series, is closely related to the conference series *Colloque de Syntaxe et Sémantique à Paris* (CSSP). The 12 papers included in the present volume are based on presentations given at CSSP 2021, which took place on December 9–11 2021 at the Université de Paris.¹

The contributions to this volume have been submitted to an additional round of reviewing. We would therefore take the opportunity to thank the reviewers, whose comments have helped the authors to, sometimes substantially, improve their papers. With their permission, the reviewers were (in alphabetical order by row):

Marta Abrusan	Patricia Cabredo Hofherr	Isabelle Charnavel
Mary Dalrymple	Jenny Doetjes	Caterina Donati
Émile Enguehard	Anamaria Fălăuș	Donka Farkas
Hana Filip	Hans-Martin Gärtner	Carlo Geraci
Thomas Graf	Michela Ippolito	Ruth Kempson
Chris Kennedy	Jong-Bok Kim	Jean-Pierre Koenig
Brenda Laca	Daniel Lassiter	Chungmin Lee
Fabienne Martin	Laia Mayol	Leo Migotti
Tatiana Nikitina	Frank Richter	Laurent Roussarie
Florian Schwarz	Carmen Dobrovie-Sorin	Ida Toivonen
Andreas Trotzke	Grégoire Winterstein	Shuichi Yatabe
Léo Zaradzki	Malte Zimmermann	

We are also gratefully indebted to Chris Piñón for passing on his expertise with the edition of EISS and for helping us with some of the typesetting issues. A special thank you should go to Alexandre Roulois, who

lent us his support for the web page, both for the conference and for the publication of the present volume.

Finally, we would also like to thank both the scientific committee and the members of the organizing committee of CSSP 2021 for their efforts in planning and organizing a memorable conference.
